Our Story

EMW Women’s Surgical Center is the only licensed abortion provider in the state of KY. The surgical center was founded in 1980 by three board certified OB/GYN physicians that dedicated their careers to providing comprehensive OB/GYN, family planning and reproductive services to women in Kentucky and regionally (Ohio, Indiana, Tennessee, Missouri, West Virginia). Over the years EMW and its physicians have acted as plaintiffs in state and federal level cases against legislation that has attempted to block women’s access to care.

Since the 1980’s EMW has been and remains the training facility for the medical students and OB/GYN residents at the University of Louisville and the University of Kentucky. Patients are referred to the University of Louisville Family Planning Clinic for long acting reversible contraception which can be obtained at no cost.
